

Are you a Business Owner, President or Sr. Executive of a company ?

Do you sometimes feel alienated at the top of your organization with no one to give you objective input?

If so...

Consider joining a peer advisory roundtable – here is some of what you can expect once you become a member -

- Share common business concerns with others in similar positions as you
- Alleviate your fears by first voicing them and then by receiving experienced advice from facilitator and group of your peers
- Receive help on important decisions and strategies you are contemplating
- Contribute by providing feedback and input to peers in various industries
- Have a quasi board of advisors available to you on a monthly basis ; the other members on your team and the facilitator become your trusted group of business leaders that can relate to you and give you sound input – just by asking at anytime

This is your complimentary offer to join one of the Candela Advisory Roundtable (CAR) teams on a trial basis – the current charter group is meeting the 3rd Thurs. morning of each month– please email cindy@candelacan.com or call 760-889-9595 if you are interested in attending this month or would like more information.
